

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

INDEX
OF
COLONIAL AND STATE
LAWS

BETWEEN THE
YEARS 1663 AND 1877 INCLUSIVE.

By JOHN HOOD,
1877.

TRENTON, N. J.:
JOHN L. MURPHY, PRINTER.
1877.

FEB 14 1939

Entered according to an Act of Congress, in the year 1877, by

JOHN HOOD,

In the Office of the Librarian of Congress, at Washington.

MAILED

PREFACE.

In offering this work to the members of the Bar, and to the public, the Compiler desires to say a few words in explanation.

Originally it was the intention to compile an index to the Colonial and State Laws of New Jersey similar in style to Hood's Index of Corporations, but after considerable labor bestowed upon it, the act directing the State Treasurer to purchase a certain number of copies was amended in a manner requiring the form of the work to be changed. Under these circumstances the present plan was adopted, and it has been found a task more arduous than was at first anticipated.

Such of the Colonial Laws as could be, are arranged alphabetically, while others are indexed chronologically; the Laws from 1776 to 1877, inclusive, being arranged alphabetically, both as to heads and the matter upon which they treat, so far as the same could be done.

Under the Constitution of 1776 the Laws are designated by Sessions and Sittings, which was required from the fact of there being several Sessions and Sittings, in some instances during the same year, and in order to preserve uniformity in the work, I have designated those enacted under our present Constitution as Legislature and Sessions.

The arrangement of the work is as follows:

- | | |
|--------------------------------|--------------------------|
| No. 1. COLONIAL LAWS. | No. 3. REVISION OF 1821. |
| No. 2. STATUTE LAWS. | No. 4. REVISION OF 1847. |
| No. 5. REVISIONS OF 1874-1875. | |

In treating such a variety of subjects and covering an extended period of time, (two hundred and fifteen years), the great difficulty of indexing the several acts under appropriate heads had to be met; and although the index is not claimed to be infallible, it is believed to be generally correct, as the Compiler has taken the utmost care to make it accurate and reliable.

JOHN HOOD.
